

CREATING LEADERS FOR THE FUTURE EUROPEAN TRAINING PROJECT IN ENTREPRENEURSHIP FOR PEOPLE WITH DISABILITY

THE PROJECT'S OBJECTIVES

To analyze and share the best European practices, in order to increase the transfer of learning experiences and expertise.

To boost strategic collaboration at local scale.

To experiment new training and support formulas in entrepreneurship among people with disability.

To spread information about the social task of the different project stakeholders.

A EUROPEAN PROJECT

The "Creating Leaders" project has been based on the European cooperation of 4 countries, as a powerful tool of intervention for people with disabilities: Spain, France, Italy and Poland, to response to needs detected in many years of work in promoting entrepreneurship, in fostering the access to employment for people with disabilities, in training to increase the employability of vulnerable groups. It is the sum of experiences of the countries participating in the project but also of other experiences detected and analysed in each country when dealing with employment and disability.

Each country is committed to mobilizing local and national partners, establishing their participation, their contribution in contents and their role in the project.

THE PROJECT OUTPUTS

The result of the work carried out over 24 months, has **been 2 guides to train entities in the design of a new and improved entrepreneurship training model, designed to guarantee access to people with disabilities, practical, simple and flexible:**

- 'Guide for training methodology and materials for entrepreneurship'
- 'Guide to work systems and accompaniment activities'

(The ecosystem to foster entrepreneurship in people with disabilities)

This guides will help you create the best possible training to foster inclusive entrepreneurship. Both in case you decide to work only with entrepreneurs with disabilities, or in case you want to impulse entrepreneurs without focusing on the existence of a disability or impairment, this guide will lead you through considerations, tools, activities and resources that should be taken into account to achieve your goal.
